Database server administration SPEC: Database engineering [CII5SE016CI]

If your lab grade is 5 or 4.5 then you have a course grade of 5 or 4.5

Please write your answers in WORD.

1. How Much Availability Is Enough? (1 point)
2. Describe the Installing & Upgrading SQL Server (1 point)
3. Describe the Monitoring and Tuning the Data Cache (1 point)
4. Define Performance (1 point)
5. Grant and remove permissions - explain and: (2 points)
   Create a user no password (public) username is your id (5 digits)
   Create a database (database name is your id (5 digits)) and table test

   ```
   Create table test (
   Id int identity primary key,
   name varchar(40),
   surname varchar(40)
   )
   ```

   Add a user to the database and assign read-only access to the surname field.

6. Write a procedure for deleting tables in the database. (Read the list of tables in the database. add a decision field, write a procedure to delete selected tables) (3 points)

Total **9**

Calculation of the final grade for the exam

x= your score/9

If x >= 0.9 Then grade = 5
If x >= 0.8 And x < 0.9 Then grade = 4.5
If x >= 0.7 And x < 0.8 Then grade = 4
If x >= 0.6 And x < 0.7 Then grade = 3.5
If x >= 0.5 And x < 0.6 Then grade = 3
If x < 0.5 Then grade = 2

Calculation of the course grade

Grade=exam*0,6+0,2*tasks+0,2* attendance
